Education

B.Tech - Computer Engineering *Expected Jun 2027*
Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU), Nagpur
Class XII (HSC) *2023*
Major Hemant Jakate College, Nagpur

Technical Skills

Languages	Java, JavaScript (ES6+), HTML5, CSS3
Front-End	React.js, EJS, Bootstrap, Responsive Web Design
Back-End	Node.js, Express.js, RESTful APIs, Passport.js, MVC Architecture
Database	MongoDB, Mongoose ODM
AI / Data	Google Gemini API, OpenAI API, LLM Integration, Tesseract OCR, PDF Processing
Tools	Git, GitHub, Docker, Kubernetes, VS Code, CI/CD, Cloudinary, Mapbox
Core CS	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Experience

Fullstack Web Development Intern | *Unified Mentor Pvt. Ltd.* *Aug 2026 – Present*
- Working on structured full-stack development assignments and project-based tasks while applying web development, debugging, version-control, and software-development practices.

Web Development Intern | *Oasis Infobyte (OIBSIP)* *2026*
- Completed a one-month web development internship by building responsive applications with HTML, CSS, JavaScript, Git, and GitHub, including portfolio, utility, and productivity-focused projects.

Projects

HealthOrbit – Integrated Digital Health Information Platform | *Live Demo* *2026 – Present*
Node.js, Express.js, MongoDB, Mongoose, EJS, Passport.js, Tesseract OCR, Gemini API, REST APIs
- Developing a unified health-information platform for medical reports, OCR-extracted measurements, medicines, symptoms, nutrition, hydration, lifestyle records, Timeline, Trends, and Dashboard views.
- Built report upload/OCR and structured-data workflows, with authenticated storage and normalized measurements that support longitudinal health information across the platform.
- Designed wearable and smartwatch integration through Health Connect and context-aware AI assistance that uses authorized health context while remaining non-diagnostic and non-prescriptive.

Roavista – Accommodation Marketplace | *Live Demo* *2025*
Node.js, Express.js, MongoDB, Mongoose, Passport.js, Cloudinary, Mapbox, EJS
- Built a full-stack accommodation marketplace with authentication, property listings, multi-image uploads, Cloudinary storage, and interactive Mapbox-based property discovery.
- Integrated third-party APIs, database models, and environment-based configuration for reliable listing, media, and location workflows.

MeshFlow X – Multi-Model AI Workflow System | *Live Demo* *Jul 2026*
Node.js, Express.js, MongoDB, EJS, OpenAI API, Google Gemini API
- Built a multi-model AI workflow system for the Mesh API Hackathon that decomposes document-based tasks and routes them to suitable AI models through an automated execution pipeline.
- Implemented DAG-style workflow routing, execution telemetry, and secure multi-provider API configuration in a unified full-stack interface.

Achievements & Hackathons

- **Inter-College Hackathons (2026):** Participated in hackathons hosted by Priyadarshini College of Engineering, Nagpur and Lokmanya Tilak College of Engineering; presented a HealthOrbit frontend UI concept and received participation certificates.
- **Mesh API Hackathon (2026):** Developed MeshFlow X, a multi-model AI workflow system focused on task decomposition, model routing, and automated execution; received a participation certificate.

Certifications

Apna College – Sigma 7: Full-Stack Web Development *(React.js, Node.js, MongoDB)* *Mar 2026*
Apna College – DSA in Java *(Data Structures & Algorithms)* *Nov 2025*
